## Packing Tips

1. Pack light – take half of what you think you need!
2. Pack one suitcase and one carry on. Pack only as much as you can carry for six miles. *Pack in a "used" back pack if possible.*
3. Take one credit or debit card if needed. Leave extra credit cards at home. ATM's are available in most cities worldwide.
4. Pack liquids like lotions and aftershave in resealable plastic bags.
5. Tell the leader if you have medication that requires refrigeration.
6. IMPORTANT: Pack your carry-on bag so that you can survive for several days if your luggage is delayed / lost.
7. Pack the heaviest items on the bottom.
8. Tie a colored ribbon / yarn on the handle of each team member's backpack to make them easy-to-identify at baggage claim.
9. Mark your bags with your name, address and telephone number, but ideally, this information should be on a covered luggage tag so that it cannot be read by the casual passer-by.
10. Dress modestly out of respect for the host culture. No tube tops, short shorts, sleeveless blouses or shirts, t-shirts with crude slogans, etc.
11. Simplify your hairdressing and make-up routine. If possible, leave blow dryers and curling irons at home.
12. Leave jewelry at home. Wedding rings and watches are OK.
13. Have one team leader bring the basic first-aid kit for the whole team.
15. Leave TV's, Ipods, CD players, & gameboys, etc. at home.
16. Do take a small transistor radio for language interpretation at large WYD events.
